

Heavy duty Concrete Block Making machine

This is heavy duty concrete block making machine an egg laying type hydraulic operated concrete Block Making Machine on wheels, Which will lay block on the concrete Floor and move to the next laying. Any type of concrete blocks can be produced with Consistent quality , high strength and pressure with accurate sizes by fixing different types of concrete mould and ram in the machine.

Technical specifications

1119 Model	Triple Vibrator
Total Power 3 Phase 415 V	9 H.P
Hydraulic Motor	5 H.P 1440 rpm
Vibrator Mould Motor	2 H.P 2880 rpm
Vibrator Ram Motor	1 H.P 2880 rpm -
Travel Motor	1 H.P 1440 rpm
Machine weight	1800 kg (Approx)
Operating Pressure	140 kg/cm ³
Quality features	Branded fittings and motors Heavy duty channels, plates, rods , Hydraulic system , Gear box, Rubber fittings, specialized electric system , TVS bolts & nuts and all fittings with shutter vibrator and Hydraulic pressing system. Heavy moulds using 10 & 12 mm plates with hard chrome electro plated, square pipes with accurate sizes.
Production Capacity 50 – 60 stroke / hour	400 x 200 x 100 mm 09 block / stroke 400 x 200 x 150 mm 06 block / stroke 400 x 200 x 200 mm 05 block / stroke 300 x 200x 100 mm 12 blocks/ stroke 300 x 200x 150 mm 09 blocks/ stroke 300 x 200x 200 mm 08 blocks/ stroke
