

## Heavy duty solid bricks Making machine

This is heavy duty solid bricks making machine an egg laying type hydraulic operated concrete Block Making Machine on wheels, Which will lay block on the concrete Floor and move to the next laying. Any type of concrete blocks can be produced with Consistent quality , high strength and pressure with accurate sizes by fixing different types of concrete mould and ram in the machine.

### Technical specifications

906 Model	Triple Vibrator
Total Power 3 Phase 415 V	7 H.P
Hydraulic Motor	3 H.P 1440 rpm
Mould vibrator motor	2 H.P 2880 rpm
Ram vibrator motor	1 H.P 2880 rpm
Travel Motor	1 H.P 1440 rpm
Machine weight	1600 kg (Approx )
Operating Pressure	140 kg/cm <sup>3</sup>
Quality features	Branded fittings and motors Heavy duty channels, plates, rods , Hydraulic system , Gearbox, Rubber fittings, specialized electric system , TVS bolts & nuts and all fittings with shutter vibrator and Hydraulic pressing system. Heavy moulds using 10 & 12 mm plates with hard chrome electro plated, square pipes with accurate sizes.
Production Capacity 50 – 60 stroke / hour	400 x 200 x 100 mm 7 block / stroke 400 x 200 x 150 mm 5 block / stroke 400 x 200 x 200 mm 4 block / stroke 300 x 200x 100 mm 09 blocks/ stroke 300 x 200x 150 mm 07 blocks/ stroke 300 x 200x 200 mm 06 blocks/ stroke
